Scotto Brothers Brings Together Fox Hollow Restaurant and The Inn At Fox Hollow

Corporate events have a new home on Long Island at the Fox Hollow Catering & Conference Center

To better serve the business community, Scotto Brothers, Inc. announces the newly formed Fox Hollow Catering & Conference Center. With award-winning catering facility and all-suite hotel on premises, the center is the ideal setting for all types of business meetings – executive retreats, training and sales seminars, recruitment events, trade shows, civic and government affairs, and holiday and special event parties.

“We made the decision to bring these two facilities together to meet the growing needs of the business community locally and nationwide,” said Franklin Manchester, Director of Sales and Marketing at The Inn At Fox Hollow. “We are now able to offer our corporate customers the convenience and choice to plan the

event that is right for them, no matter what the size.”

Manchester adds, “For years the two facilities have acted like two separate entities with the hotel benefiting from the catering hall’s social business. Over the past two years, the owners and management of the facilities realized that the hotel was very successful in attracting corporate clientele to its facility, now needing additional space is to accommodate its loyal customers. It just makes good sense for us to compound our efforts in the corporate arena, allowing us to go after some of the larger corporate events on Long Island and compete with some of the larger hotels and catering facilities on the Island. We’re now one entity in many ways and we will be launching a full sales and marketing campaign to position ourselves appropriately within the market place. Basically, the services and amenities we can now offer are unlimited.”

Combining the two facilities into one center offers the following:

- **Ten Meeting Rooms** – Ten different meeting and banquet rooms that can accommodate from 10 – 400 guests
- **Catering Service** – Award-winning cuisine and full catering

services are available for breakfasts, luncheons, dinners, brunches and break sessions

- **Technology** – All meeting rooms are equipped with state-of-the-art technology, including T1 high-speed internet access; wireless internet; full VPN accessibility, videoconferencing, teleconferencing and cyber guest accessibility
- **Hotel Accommodations** – Upscale, all suite hotel with 145 luxury suites ■
