Mr. Anthony Scotto, CEO
Scotto Brothers
40 Crossways Park Drive
Woodbury, NY 11797

Dear Mr. Scotto;

Just a note of appreciation to you for the hospitality shown to me and my staff last week by your team of professionals led by Chris Lavoie at the Inn at Fox Hollow.

As Huntington Hospital's chief development officer, I am charged with raising money to ensure that despite the challenges in healthcare reimbursements, we are still able to purchase state-of-the-art equipment, fund new community programs and expand our surgical services capability with the addition of a new wing.

My goal was to develop an aggressive fundraising strategy and needed to find an environment out of the hospital that would lend itself to such a meeting. I wanted to show my staff that I appreciated their efforts by bringing them to an off site location that was upscale, professional, attractive, service oriented, quiet and comfortable enough to get the job done. The Inn at Fox Hollow was perfect and were it not for the sensitivities relative to meeting room pricing shown to us by Chris, we never would have been able to go to your establishment and accomplish our task. The service, room amenities and breakfast exceeded my expectations, the décor was lovely and lunch in the restaurant was outstanding and reasonably priced.

When the session ended we were all pretty tired, but I wanted the "grand tour" and Chris was happy to oblige. The time was well spent and I have since recommended that the Fox Hollow be considered for future medical staff, trustee and special senior meetings.

I also want to take this opportunity to thank you for the past support we have received from your other properties such as Rothmann's and the Watermill Inn for raffle prizes and donations for our events. Should you, your family or employees ever find yourselves needing the services of Huntington Hospital or a physician referral, please call me directly at (631) 351-7040 x106. Again, thank you.

Sincerely,

Robert Mottola, Vice President
Development and Community Relations
